PROMPT 01

The Gamer-Room Selfie

Cozy clutter + direct gaze — the highest-engagement formula in the pack.

SUBJECT

A young woman with **long dark wavy hair and blunt bangs**, gaming headset with red accents around her neck, seated in a gray ergonomic chair, taking a selfie with a **light blue smartphone**.

WARDROBE

White halter-neck crop top with dark gothic graphic; **pink patterned pajama pants**; subtle makeup, playful expression.

SCENE

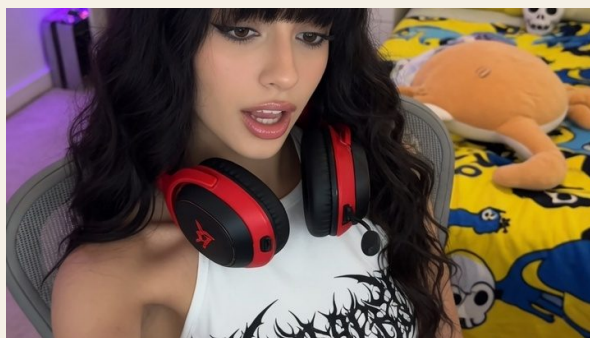

Brightly lit gamer bedroom: white shelving with Funko Pops and game cases, **large Pikachu plush**, yellow patterned blanket, cozy clutter everywhere.

CAMERA & LIGHT

Phone front-camera look, slightly high angle, bright even indoor light, natural skin texture, no beauty filter.

WHY IT WORKS

The clutter does the realism work. Every recognizable object — plushies, figurines, game cases — adds a "this is a real room" signal that the brain's AI-detector can't dismiss.

PROMPT 09

Night-Luxe Flash

Hard flash, hard shadows — the paparazzi look that reads instantly as nightlife.

SUBJECT

A woman in a **sparkling halter-neck evening dress** with a white fur coat off the shoulders, seated on a **white textured sofa**, cocktail glass in hand, confident direct gaze behind dark sunglasses.

CAMERA & LIGHT

Direct on-camera flash, hard shadow thrown on the curtain behind, slight overexposure on skin highlights, 4:5 vertical.

MOOD

Glamorous, chic, night-luxe, confident.

VARIABLE IDEAS

Sofa → marble staircase (see Prompt 15) / club bathroom mirror / back seat of a car. The flash stays. The hard shadow IS the style — if your model softens it, add "harsh direct flash, deep shadow outline behind subject".

This is 2 of 25 prompts. Full pack: all four series, identity-lock master templates, and the consistent-character guide.
